

School Development Plan

PUPILS

2023 – 2024

Making a difference and achieving excellence for every child.

What is our School Development Plan?

Every school has a development plan that shows how they will improve their school that year. This is called a School Development Plan (SDP). Our SDP shows what we will all do to make Chapel Street even better. It is the most important things we will all do this year to make a difference.

Our values

- **Growth** – We work hard and try out best so that we are always learning.
- **Respect** – We do the right thing for ourselves and each other.
- **Inclusion** – We care about people and celebrate what makes us unique.

What does the SDP mean for me this year?

Goal	1	2	3
What is everyone trying to achieve?			
	Improve attendance for the whole school to at least 94%.	Improve writing across the curriculum.	Improve outcomes through high quality, timely feedback .
What can I do?	I get ready to come to school in the mornings.	I try my best with my writing in all lessons.	I tell my teacher when I have an idea.
This means that I will...	Get my things ready for school before I go to bed – uniform, books and bag. Get out of bed when my alarm clock goes off or I am asked to. Come to school every day so I don't miss any learning. Tell an adult at school if I feel like I don't want to come to school.	Read for at least 15 minutes every day at home because reading helps me write. Talk about my writing. Read my writing out loud to check it makes sense. Put the same effort into my writing for every lesson. Ask for help if I am not sure what to do.	Share what I think in lessons. Fill in the self-assessment on my learning slip in every lesson. Think about changes that would make our school even better and tell someone. Take part in school council and other leadership opportunities. Talk to my family about what I have learnt at school.
